

Our focus

From 2009, as a part of its comprehensive program to support of the agro pastoralist communities in Galgaduud and Mudug. As drought conditions have worsened, CISP is significantly scaling-up its efforts to improve access to water.

Our facts and figures:

In 2010, CISP's intervention in Galgaduud and Mudug includes:

- 10 shallow wells, two water storage facilities and one borehole drilled
- 11 Water Committees trained on treatment, maintenance and management of water points;
- Chlorine and equipment for the maintenance in 11 rural locations supplied;
- 20,000 beneficiaries (of which 50% women and 15% IDPs) reached;
- More than 7.5 litres a day made available for each beneficiary;
- 1,200 vulnerable people involved in CISP's rehabilitation and construction work, benefiting from cash for work.

In 2011 CISP has rehabilitated and treated:

- 6 shallow wells;
- 12 water storage tanks.

Main activities:

- Construction and rehabilitation of water points, shallow wells, boreholes and storage facilities;
- Provision of equipment and chlorine used for treatment of water;
- Establishing and training Community Water Committees, in charge of water management and treatment;
- Cash for work;
- Rehabilitation and construction of sanitation facilities (latrines and hand wash services), separate for men and women;
- Provision of pipelines and storage tanks in urban areas hosting IDPs.

Geographical areas

- Galgaduud: Dhuusamarreeb;
- Mudug: Hobyo .
